**~ YOUR SNEAK PEEK INTO ~**

**"Selling Books on Amazon"**

By Larry Scott

Larry Scott wrote this book to help you earn anywhere from a few hundred dollars a month to running a full-time business out of your home. Due to the tremendous flexibility in online bookselling, you can easily run this business on a part-time basis. Customers shop, and order your books 24 hours a day, seven days a week from all around the world even if you aren't physically at the "store".

I'll show you how to set up and operate a profitable bookselling business, but I offer no guarantees as to the income you'll make, since the amount of profitability is left entirely up to your own choices and your own work ethic.

This book discusses the strategy and techniques of selling books on Amazon. It is a blueprint of how to set up and operate an online bookstore, not a User's Guide for the software that is used. Obviously, there are many, many different ways to go about selling books online. I'm showing you the methods that I currently employ to operate my business and I'll try to give you an idea of other options you might explore.
